

Using Active Learn

We have been really fortunate to be able to access some super learning resources produced by the publishers, Pearson. Due to the coronavirus outbreak, they have allowed free access to the online learning platform called ActiveLearn.

Accounts have now been set up for all pupils in Class 3 and children can log in to this via www.activelearnprimary.co.uk

Children will login using a Username, password and school code, which will be given to you via email.

Pupil Home

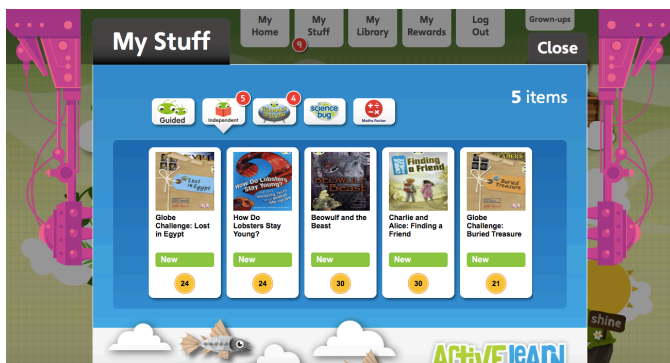

Once logged into pupil world, they'll arrive at the Pupil Home.

Children can personalise their home screen by choosing a world, which include Race World, Treetops World, Skate World and Future World. This page is interactive so will come to life when objects are clicked on. They will also see that they have been given a new name. I have given each child a name for use on the Active Learn either a girl or boy Viking first name and a Manx place or location for their surname.

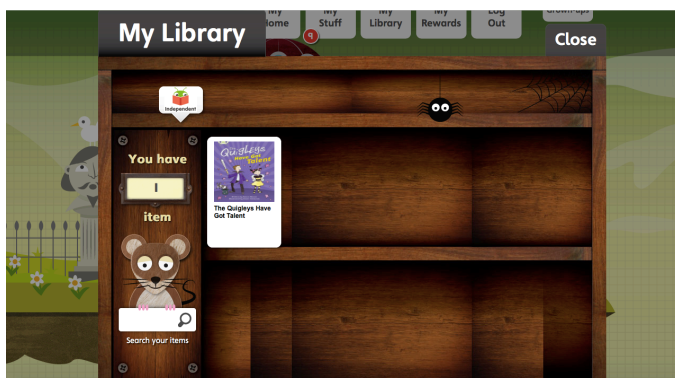

My Stuff

My Stuff is where the children can find activities, tasks or games that have been allocated to them. To get them started I have included some books to read (with interactive questioning and support to read if required) and some spelling and grammar tasks. Every child also has access to the Maths Factor which is a great daily maths workout. Independent reading using Bug Club books are a super resource as they check children's understanding of the reading as they go through the book. Small Bug icons appear throughout the books – children should click on these and questions or small tasks will appear and should be completed – children will be rewarded for this with treasure they can spend in My Rewards. I will be able to monitor how they get along with this when I check on their activity.

My Library

My Library is where units of games and books read go to after a pupil has completed them. Here children can re-play any units or read books again for extra practice. I will be able to see what the children have done and how they have got along answering the questions and completing any tasks or games.

My Rewards

My Rewards is where the children can go to select their rewards. They can also customise avatars, decorate a tree house, play games in the Games Zone and Skate Shack. The more units the children complete, children read, do maths, the more rewards (treasure) they can unlock and buy. The total treasure they have collected can be seen on the home page in the treasure chest.

Grown Ups

This is extra information for parents about how the site operates and how to support your child with this learning resource.

I will be regularly checking children's progress as the site allows me to see any activity related to your child's account, but I also welcome any feedback from them about how they are getting on with using the resources allocated to them.

It is not something I envisage the children accessing every day, but could be used along with the other suggested activities from Class 3 Learning suggestions page on Ballaugh School website.

I really hope the children enjoy their learning using this exciting resource. Please feel free to contact me with any queries, questions or feedback about how they are getting on.

Best wishes,
Kate

PS.

Use this weblink to take you to the Help section of the Activelearn website for more information on how it all works.
